

CAP Directors Report

August 2020

Adult Athletics

Endure Boot Camp will begin their 1st session on (9/19) and Jazzercise has confirmed they will be returning in October. The Fitness Center continues to be a safe amenity for the community, and we expect new members and renewals as we get into the colder months.

Adult Enrichment

All adult enrichment programs have been suspended until further notice.

Aquatics

Kathryn is looking ahead to fall and program planning to hopefully include: masters, parent/child swim lessons, Blue Fins stroke clinic (a new program), in addition to regular open and lap swim.

CAP CARE

In August CAP CARE ran 4 weeks of Day Camp. Enrollment numbers continued to stay steady through the month and we are happy to report that there were no exposures or positive cases with our program.

During the month Mandy and Mary worked to register 4K families and new families for the fall. The COVID guidelines and possible scenarios were finalized. Mandy updated the website to include how CAP CARE will operate under any model that the district should need to change to. She also created and posted a series of videos showing parents the rooms, how the new protocols will work as well as check in and out times. Mandy and Mary also successfully hosted 2 drive through registration nights for new and returning families to complete their paperwork. Mandy and Gabby also worked with CES to offer in person individual family orientation for new 4K families.

With the additional week of Day Camp, CAP CARE had 6-10 children in attendance and with the help of the CES custodians, cleaned the rooms and carpets. There were also 2 special visitors during August. Mr. Mikey and Mr. Adam came to play camp games with the kids and Mr. Martin from Topper's Pizza came to do a pizza demonstration on the last week of scheduled Day Camp. Our program could not take field trips this summer and we missed our last trip to Noah's ark, so the team planned an extra swimming day and the Legler family rented the Kona Ice truck.

At the end of August, CAP CARE enrolled 9 4K children and 6 additional children. 24 children chose to take a 3 month leave of absence, and 12 dropped care completely

First friends have decided to put their program on hold until January.

Community Café

The Community Cafés have been suspended until further notice.

Food Pantry

The Food Pantry served 71 households in the month of August including 120 adults, 52 children and 26 seniors in our community. The drive-up, no contact procedure for food distribution is still in place and will remain in place at least through September.

The new pantry space is coming along nicely. New storage units have been installed and we are hoping to have a few volunteers back by the end of September. St. Vincent DePaul donated a new reach-in cooler for the pantry that will be installed soon.

Ripley Park

In the month of August, Ripley Park was under a water advisory for most of the month and even closed for a week and a half due to high e coli levels. This resulted in a big dip in visitors which led to a slow month. Phase one for the water retention plan was completed and all the plants and grading have been completed. At the very end of the month, our e coli levels dropped and we are hoping for a hot and busy labor day weekend.

Seniors

All senior programming have been suspended until further notice.

Youth Athletics

Flag Football and Soccer will be starting their season at the beginning of September. Adam began piecing together the week to week planning for each program along with the safer return modifications. Both programs will look different this year but the important skill development of each child will be continued.

Youth Enrichment

All youth enrichment programs have been suspended until further notice.

New Hires

N/A

Respectfully Submitted,
Jordan Nichols, Interim Executive Director
