

## **CAP Directors Report**

*September 2020*

### **Adult Athletics**

Endure Boot Camp and Jazzercise have been safely operating at the CHS using both outdoor and indoor space during the appropriate times. The Fitness Center continues to be a safe amenity for not only the community but a few of the CHS athletic teams. We have been able to safely rotate teams through the Fitness Center on different days/times for appropriate sanitizing.

### **Adult Enrichment**

Ladies Day Away started back up and we had 6 participants at our only class in September.

### **Aquatics**

Blue Fins Stroke Clinic started the second week of September. We are serving a total of 43 kids across the two-day stroke clinic. Swimmers could choose to swim either on Wednesdays or Thursdays for a 45-minute stroke clinic with swimmers in their age group. Each clinic time slot is limited to eight individuals or eight households.

Masters started the second week of September as well. It is going great so far!

In September we were approached by five club swim teams looking for pool space. We were only able to accommodate two of them. Their rentals will continue through November with a monthly rental agreement. We will reevaluate for the month of December and beyond.

While programming is challenging, we are lucky to be able to safely run some programs while still providing a safe place for our lap swimmers.

Kathryn is looking into swim lesson options if/when we are about to hold group lessons again as those are in high demand and an essential skill for kids to learn. Currently we are able to run private swim lessons if a household adult can get in the water with the child.

Membership sales are happening again! It helps that we are one of the few pools in Dane County open. Sales this month:

September: 18

2020 Total: 75 (2019 total sales: 224)

(New goal: break 100 membership sales in 2020)

### **CAP CARE**

In September CAP CARE successfully opened an all-day option for those students in virtual school needing care during the day. This included up to seven 3rd grade students and one 5th grade student. We started the school year with seven 4K students in our wrap around program. The wrap around program is down eight students from last year.

CAP CARE applied for more childcare grants and were approved for two of them. One is for funding staff recruitment and retention efforts totaling \$2,910.00. The second was for providing safe, healthy, and high-quality child care opportunities totaling \$3,800.00 for a grand total of \$6,710.00. CAP CARE also purchased a battery operated fogger/mister which can be used to put disinfectant in and sanitize the classrooms upon leaving the room for various activities.

CAP CARE is working closely with CES to be informed quickly if a child is out with COVID symptoms and will be notified if a child has a positive case and is connected to CAP CARE.

CAP CARE added one new child to the program and has 14 on the waiting list. However, all families on the waiting list are waiting out COVID.

### **Community Café**

The Community Cafés have been suspended until further notice.

### **Food Pantry**

The Food Pantry served 83 households in the month of September including 85 adults, 54 children and 33 seniors in our community. The drive-up, no contact procedure for food distribution is still in place and will remain in place at least through October.

An invitation has gone out to high school students and their families to volunteer with food distribution on Monday evenings. We look forward to welcoming them.

### **Ripley Park**

The park season is officially over. In September, Garth and Austin started to clean everything so it can be stored for winter. All picnic tables and shelters have been power washed. The picnic tables that needed it have been stained and the plan is to stain the north and south shelters next. The park will host Huntin' for Pumpkins in October and then focus on Holiday Lights.

### **Seniors**

All senior programming has been suspended until further notice.

### **Youth Athletics**

Flag Football and Soccer have been operating safely and smoothly with the new program style and safety measures. A group of awesome volunteer parents have made that possible and are following all the policies and procedures Adam has given them. The focus on skills and drills has brought positive results and feedback from both the kids and parents.

### **Youth Center**

The Youth Center is prepped and ready to go once kids are back to in-person learning. The plan is to keep each grade together in their own room. Those rooms will rotate daily so all kids can have a chance to use the different items in each room. The Youth Center also has a fogger/mister to clean and disinfect each room at the end of the day.

### **Youth Enrichment**

We have set up STEM for Kids virtually and the first week is in October.

### **New Hires**

Jessie Stevens, Aquatics  
Kendra Tobias, Aquatics  
Lilly Wendricks, Aquatics  
Jordan Nichols, Executive Director

Respectfully Submitted,  
Jordan Nichols, Executive Director
